PROFESSIONAL SUMMARY

Motivated B.Tech Computer Science graduate with a strong foundation in Core Java, Data Structures & Algorithms, and Object-Oriented Programming, along with hands-on experience building full-stack web applications using the MERN stack. Eager to apply my technical skills and problem-solving abilities in an entry-level Software Developer role, and to grow through real-world projects in a collaborative team.

EDUCATION

Computer Science Engineering, IES University, Bhopal

TRAINING & COURSES

Java DSA Course, RICR Institute Bhopal [2025-2026

- Completed Java Data Structures & Algorithms course with certificate.

Web Development Course 2026

- Completed web development course covering frontend and full-stack fundamentals.

TECHNICAL SKILLS

Programming Languages
Java, JavaScript, SQL
Frontend Technologies
HTML5, CSS3, JavaScript, React.js
Backend & Database
Node.js, Express.js, MongoDB
Tools & Platforms
Git, GitHub, VS Code
Core Computer Science Concepts
Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Problem Solving

KEY ACHIEVEMENTS

- **NavKalpana National Hackathon (2025):** Participated as Team Leader, coordinating the team and contributing to building and presenting a solution in a national-level competition.
- **NPTEL Certification, Object-Oriented Programming in Java:** Completed the NPTEL course and earned the certificate, strengthening skills in classes, inheritance, polymorphism, abstraction, encapsulation and exception handling.

PROJECTS

Cardio Shield AI (NavKalpana National Hackathon 2025)

- Led the team as Team Leader and took the project from idea to a working solution for a national-level hackathon.
- Built an AI-based solution focused on heart health and presented it to the judges.

Cravings – Smart Food Delivery Platform, MERN Stack

- Developed a full-stack food delivery platform with secure JWT authentication, role-based access control, and responsive Admin, Customer, and Rider dashboards.
- Implemented Neighborhood Pooling (Group Drops), Macros & Fitness Integration, and a Travelability Score for delivery optimization.
- Integrated RESTful APIs, MongoDB, Cloudinary, and OTP-based email verification to deliver a scalable and user-friendly application

GoChat – Chat Application

- Developed a real-time chat application using MongoDB, Express.js, React.js, Node.js, and Socket.IO.
- Implemented secure JWT authentication, one-to-one messaging, group chats, real-time typing indicators, online/offline status, file sharing, and responsive user interfaces.

EMI Calculator

- Built an EMI calculator that computes the monthly installment from loan amount, interest rate and tenure.
- Implemented the standard EMI formula with instant results and a simple, easy-to-use interface.
- **Tech Stack:** HTML, CSS, JavaScript

CERTIFICATIONS & ACTIVITIES

NPTEL – Object-Oriented Programming in Java, 2025
Hackathon (NavKalpana), Team Leader, 2025
